NARGES DADASHI

Frontend Developer

Dublin, Ireland | https://github.com/nargesdadashi | nargesdadashi@gmail.com | +353833485746

Front-end developer, enthusiastic about making high-quality web applications and websites. Experienced in developing and implementing web applications using modern Javascript frameworks and standards. Able to effectively self-manage during projects, as well as collaborate as part of a productive team.

WORK EXPERIENCE

SAHAND SCHOOL PORTALS

Front-end Developer | Jun, 2018 - Dec, 2018

Sahand EDU is a portal to provide a platform for communication between headmaster, teachers and parents easier. I developed several features, components and pages for the portal using React with Material UI.

TRIP-E MA

Front-End Developer | Jun, 2017 - Jun, 2018

Trip-e Ma is an Airbnb like startup based in Tehran to provide people a place to stay in their trips around Iran and also let the owners make money out of their apartments by letting it short-term to other people. I developed the website's admin panel front-end with React.js, integrated with backend by REST, also implemented the website's server-side rendering with React and Next.js frameworks to improve the website SEO, and created a web crawler for aggregating houses information with Node Js.

PROJECTS

COCKTAIL RECIPES APP

Developer

Developed using TypeScript and React, uses TheCocktailDB API to search cocktail recipes. Project source code and demo are available on Github.

MOVIE WATCHLIST APP

Developer

Built with React and Firebase real-time DB, using TMDB API, helps user to explore movies and create watchlists. Project source code and demo are available on Github.

WEATHER APP

Developer

Created using Next JS and React, using Open Weather API. Project source code is available on Github.
