NARGES DADSHI

Frontend Developer

Dublin, Ireland | nargesdadashi@gmail.com | +353833485746

Front-end developer, enthusiastic about making high-quality web applications and websites. Experienced in developing and implementing web applications using modern Javascript frameworks and standards. Able to effectively self-manage during projects, as well as collaborate as part of a productive team.

WORK EXPERIENCE

SAHAND SCHOOL PORTALS

Front-end Developer | Jun, 2018 - Dec, 2018

Sahand EDU is a portal to provide a platform for communication between headmaster, teachers and parents easier. I developed several features, components and pages for the portal using React with Material UI.

TRIP-E MA

Front-End Developer | Jun, 2017 - Jun, 2018

Trip-e Ma is an Airbnb like startup based in Tehran to provide people a place to stay in their trips around Iran and also let the owners make money out of their apartments by letting it short-term to other people. I developed the website's admin panel front-end with React.js, integrated with backend by REST, also implemented the website's server-side rendering with React and Next.js frameworks to improve the website SEO, and created a web crawler for aggregating houses information with Node Js.
